

Charge smart. Charge at home. Premium EV charging solutions from RSN Parts.

Experience power, design and advanced technology in one high-quality charging solution. Start every day with a full battery, safely, efficiently and completely under control.

Technology without compromise:

- ✓ 11kW & 22kW (3-phase 32A)
- ✓ Type 2 connection – suitable for almost all EVs
- ✓ Available with fixed charging cable or socket outlet
- ✓ IP65 – completely dustproof and waterproof
- ✓ IK10 – maximum impact resistance
- ✓ Integrated DC residual current protection (6mA)
- ✓ Load balancing (optional)
- ✓ TUYA Smart App integration
- ✓ Suitable for solar panels

Our charging stations are developed with high-quality internal components and a robust premium housing for maximum reliability, both indoors and outdoors.

Premium charging, without compromise.

PREMIUM CHARGING

Smart charging starts at home.

CHARGING CABLES

The smart charging cable for every EV driver
Quality you can feel. Performance you can trust.

A high-quality charging cable makes the difference between simply charging and charging with complete peace of mind.

Our premium charging cables combine maximum performance with durability, safety, and flexibility.

Technology you can rely on:

- ✓ Type 2 connection – compatible with almost all electric vehicles in Europe
- ✓ Available in 1-phase and 3-phase versions (up to 32A)
- ✓ Charging power up to 22kW
- ✓ TPU cable jacket – extra flexible, wear-resistant, and durable
- ✓ IP65 rated – weatherproof and splash-resistant
- ✓ High-quality copper contacts for optimal conductivity
- ✓ CE and TÜV certified – independently tested for safety and quality
- ✓ Available in 3m, 5m, and 10m lengths

Developed for intensive daily use and designed to withstand cold, heat, and mechanical stress.

Reliable charging, without compromise

Quality is not a promise. It is our standard.

QUALITY & CERTIFICATION

At RSN Parts, we believe that electric mobility requires reliable technology.

That is why we select our charging solutions based on performance, safety and durability, not just price.

We only supply products that comply with strict European standards and are suitable for intensive daily use.

Certified assurance

- ✓ CE certified according to European directives
- ✓ TÜV approved and independently tested
- ✓ Compliant with IEC and charging safety standards
- ✓ IP-rated enclosures (water and dust resistant)
- ✓ Impact-resistant constructions (IK rating where applicable)
- ✓ Internal quality control before delivery
- ✓ We do not deliver compromises. Only solutions we fully stand behind.

Future-oriented & sustainable

Our products are prepared for higher power capacities, smart energy management and integration with solar panels. Technology you can build on.

RSN Parts – *Smart charging, wherever you are.*

SHOWROOM, ADVICE & INSTALLATION

Personal advice. Local stock. Immediately available.

A good charging solution starts with good advice. At RSN Parts, we take the time to understand your situation so you can choose a solution that perfectly matches your home and vehicle.

Visit our showroom

View and compare our charging stations, cables, and mobile solutions up close.

Feel the quality, discover the differences, and receive immediate expert advice.

- ✓ Physically view products
- ✓ Explanation of operation and installation
- ✓ Demonstration of app control
- ✓ Directly available from local stock

From advice to installation

Our certified installers provide:

- ✓ Professional installation according to standards
- ✓ Safe connection and configuration
- ✓ On-site explanation upon completion
- ✓ Post-installation support

No long delivery times. No uncertainty. Just certainty.

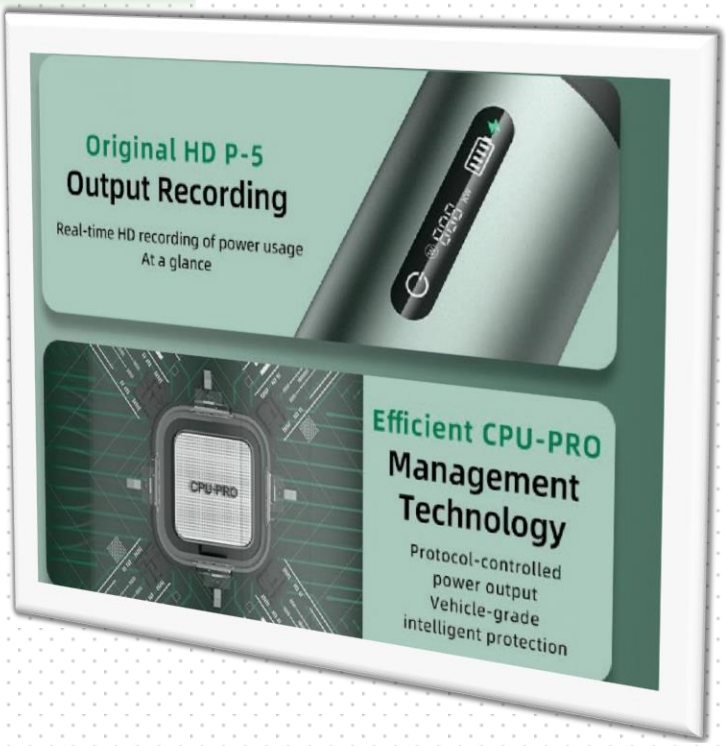

Come visit us and discover the right charging solution—from first introduction to installation.

Compact, powerful, and reliable, the perfect travel companion for every EV driver.

Compact elegance. Unlimited freedom.

MOBILE CHARGERS

- ✓ **Supports charging up to 11kW (3-phase 16A)**
- ✓ **Connection via CEE industrial power plug**
- ✓ **Adjustable charging power (customizable amperage)**
- ✓ **Control and monitoring via TUYA Smart App**
- ✓ **Insight into energy consumption and charging sessions**
- ✓ **Programmable charging schedules**
- ✓ **IP65 protection rating**
- ✓ **CE & TÜV certified**

Mobile charging, your way

Two versions. One premium standard.

Always prepared. Always in control.

Our mobile chargers combine safety, flexibility, and high-end technology.

Compact version – Simplicity & reliability

Ultra-compact design with fixed Schuko (230V) plug.

- ✓ Schuko connection
- ✓ Adjustable charging power (customizable amperage)
- ✓ Supports delayed charging (delay function)
- ✓ Type 2 vehicle connector – compatible with almost all EVs
- ✓ IP65 – dust and water resistant
- ✓ Overheating and leakage current protection
- ✓ CE & TÜV certified

Practical, reliable, and ready to use immediately.

Smart version – Power & full control

Advanced mobile charger with CEE power connection and integration with the TUYA Smart App.

Freedom in charging, without compromise.

V2L & ENERGY SOLUTIONS

The power of your car. Now usable everywhere.

Smart energy solutions from RSN Parts

Your electric vehicle is more than just a means of transport—it is a mobile energy source.

V2L Power Adapter – Your car as a battery

- ✓ Type 2 connection to the vehicle
- ✓ Schuko 230V output for external devices
- ✓ Suitable for electric bikes, tools, or even charging another car
- ✓ Only for vehicles with V2L support
- ✓ Built-in protection against overload and power failures
- ✓ Integrated display with real-time voltage and power information
- ✓ CE certified

Type 2 Power Cable – Energy via the charging station

Professional 3-meter cable with Type 2 connector.

- ✓ Connection to public or private charging stations
- ✓ Enables the use of power from a charging point
- ✓ Suitable for various electrical applications
- ✓ Robust and durable construction
- ✓ CE certified

Energy that goes beyond driving.
